## Selectmen's Report

---

To the Citizens of the Town of Swampscott:

The Board of Selectmen submits herewith its annual report for the year 1948:

### Hearings and Conferences

The Board of Selectmen held fifteen public hearings and one hundred sixty-five conferences with department heads, various committees, and citizens of the town.

### Legislation

Your Board of Selectmen was represented at a State House hearing pertaining to additional water supply lines and a survey is being conducted under State supervision.

The Board of Selectmen is unanimously opposed to any increase in domestic gas rates and was represented at hearings for the purpose of recording its opposition.

### Transportation

The Board was successful in procuring bus service from the monument to Marblehead via Humphrey Street but due to lack of patronage it was necessary to discontinue this service. Your Selectmen have recommended that the zone be extended from Millett Road to the corner of Atlantic Avenue, Humphrey Street and Puritan Road for the benefit of patrons.

### Police

The new mobile police radio telephone system was installed in the two cruising cars thereby increasing the efficiency in this department and assuring citizens greater protection as this new system provides direct communication from the Police Station to cruising cars. The citizens are extended a cordial invitation to examine this equipment at any time.

Chief of Police Francis P. Wall was honored by his appointment as a member of the National Safety Council. Swampscott has a good safety record and continued effort will be made to retain it.

During the year several new traffic regulations were approved by the Board of Selectmen. These regulations were designed for the specific purpose of alleviating parking conditions in the beach district.

### Street Lighting

Consideration was given and lights were installed in locations where it was deemed necessary.

A light was provided for patrons using the Phillips Beach Railroad station. This light was installed through courtesy of the Boston and Maine Railroad at the request of the Selectmen.

### Street Improvements

Under Chapter 90 General Laws, Salem Street has been resurfaced and your Selectmen have recommended the elimination of car tracks on Humphrey Street and Essex Street.

### **Housing .**

Conferences were held with the Veterans' Housing Committee and other department heads in an effort to expedite matters relating to Veterans' Housing.

The Board wishes to thank this committee for its untiring efforts and cooperation in this undertaking.

Town Engineer Howard L. Hamill and Surveyor of Highways Timothy J. Ryan are to be commended for their cooperation and assistance in conducting surveys and soundings.

### **Cemetery**

It is the opinion of this Board that serious consideration be given to the erection of a new building to be used by the Superintendent of Cemetery for office space, storage of equipment and for proper facilities such as rest rooms for the use of the general public.

Your Selectmen feel that the present delapidated and antiquated building lacks all of the facilities mentioned above and does not render the service that is necessary for the comfort and protection of our citizens and the public.

This Board has requested Town Engineer Howard L. Hamill to survey certain parts of the Cemetery for the purpose of acquiring additional burial lots.

The Town Counsel has been requested to draft new cemetery regulations.

### **Beaches**

As a result of recent court decisions pertaining to the rights of citizens to use beaches, the Selectmen deem it imperative that our limited Town Meeting authorize the appointment of a committee to study the beach situation in our town.

The decisions of the courts have a direct bearing on the rights of our citizens to use the beaches and we believe that it is vitally important that some action be taken to protect and safeguard the rights of our townspeople to enjoy the beaches.

In brief, the courts have decreed in many instances that land owners adjacent to the beach own the land to low water mark and could therefore prohibit the use of this property to the general public.

The Board is therefore sponsoring an article in the Town Warrant requesting the appointment of a committee to study our town's beach problem.

With reference to parking in the Beach area the Selectmen have endeavored through the medium of traffic regulations to alleviate parking and other nuisances and will continue to cooperate to the end that these conditions be properly controlled or eliminated.

### **Use of Old Town Hall**

Requests for use of this building continue to be great and we are making every effort to comply with requests of all organizations and individuals.

Respectfully submitted,

EDGAR U. BURDETT,  
KENNETH W. ULMAN,  
ROGER J. CONNELL,

Board of Selectmen.

## Special Town Meeting

Monday, May 17, 1948

Essex ss.

To either of the Constables in the Town of Swampscott, in said County,

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify the inhabitants of the Town of Swampscott, qualified to vote in elections and in town affairs, to assemble in the Hadley School in said Swampscott on Monday, the seventeenth day of May, 1948, at 7:45 P. M., then and there to act on the following articles, viz:

Article 1. To see if the town will vote to lay a sewer in Pine Hill Road for a distance of approximately 225 feet and appropriate the necessary money therefor or take any action relative thereto. Sponsored by the Water and Sewerage Board.

Article 2. To see if the town will vote to extend the sewer in Puritan Road for a distance of approximately 225 feet and appropriate the necessary money therefor or take any action relative thereto. Sponsored by the Water and Sewerage Board and the Board of Health.

Article 3. To see if the town will vote to appropriate a sum of money for the necessary expenses of the Town Clerk that may be incurred outside the commonwealth as provided for under Chapter 40 Section 5 (34) of the General Laws (Ter. Ed.) Sponsored by the Board of Selectmen.

Article 4. To see if the town will authorize the moderator to appoint two Town Meeting members to serve with two members of the School Committee and the Superintendent of Schools as a committee to establish the total cost involved for constructing and equipping a building to be used as a gymnasium at the Junior High School, and appropriate the sum of \$250.00 for the expenses of this committee. Sponsored by the School Committee.

Article 5. To see if the town will vote to purchase uniforms for the members of the Police Department and appropriate the necessary money therefor or take an action relative thereto. Sponsored by the Chief of Police and Board of Selectmen.

Article 6. To see if the town will vote to purchase uniforms for the members of the Fire Department and appropriate the necessary money therefor or take any action relative thereto. Sponsored by the Board of Fire Engineers.

Article 7. To see if the town will vote to appropriate a sum of money for the payment of salaries to the members of the Board of Fire Engineers or take any action relative thereto. Sponsored by the Board of Selectmen.

Article 8. To see if the town will vote, under the provisions of Section 26 k of the Housing Authority Law of the Commonwealth of Massachusetts as inserted in Chapter 121 of the General Laws by Chapter 574 of the Acts of 1946:

1. To determine and declare that there is a need for relieving congestion of population, that there exists sub-standard or decadent areas and unsanitary or unsafe inhabited dwellings, that there is a shortage of safe sanitary dwellings available for families of low income at rentals which they can afford in the Town of Swampscott.
2. To determine that a housing authority is needed in the Town of Swampscott for the purpose of the clearance of sub-standard or decadent areas or the provision of housing for families of low income or to engage in a land assembly and re-development project.
3. To provide for the organization of a housing authority in the Town of Swampscott under the provisions of Chapter 121 of the General Laws as inserted by Chapter 574 of the Acts of 1946 and establish such housing authority and appropriate the necessary money therefor or take any action relative thereto. Sponsored by the Board of Selectmen.

And you are directed to serve this Warrant by posting an attested copy thereof at the Town Administration Building, Post Office and in at least two public and conspicuous places in each precinct in the Town and at or in the immediate vicinity of each railroad station in the Town not less than seven days before the day appointed for said meeting.

HEREOF FAIL NOT, and make due return of this Warrant, with your doings thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this twenty-ninth day of April, A. D., 1948.

# State Election

## The Commonwealth of Massachusetts

### GREETING:

Essex, ss.

To either of the Constables of the Town of Swampscott, in the said County,

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of said town who are qualified to vote in Elections to meet in their respective precincts in said Swampscott on Tuesday, November 2, 1948 at 7 o'clock A. M. for the following purposes:

To bring in their votes to the Election Officers on one ballot for the following officers:

Presidential Electors; Governor; Lieutenant Governor; Secretary; Treasurer; Auditor; Attorney General; Senator in Congress; Representative in Congress; Councillor; Senator; Representatives in General Court (3); Register of Probate and Insolvency; County Commissioners (2); County Treasurer.

### TO VOTE YES OR NO ON THE FOLLOWING QUESTIONS:

#### QUESTION NO. 1

Do you approve of the adoption of an amendment to the Constitution summarized below which was approved by the General Court in a joint session of the two branches held June 28, 1945, received 227 votes in the affirmative and 0 in the negative, and in a joint session of the two branches held June 9, 1947, received 232 votes in the affirmative and 8 in the negative?

YES	
NO	

#### SUMMARY

This proposed amendment to the Constitution adds to the declaration of the rights of the inhabitants, as now set forth in the Constitution, the following:

"The right of free speech shall not be abridged."

#### QUESTION NO. 2

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held June 6, 1946, received 220 votes in the affirmative and 28 in the negative, and in a joint session of the two branches held June 9, 1947, received 228 votes in the affirmative and 5 in the negative?

YES	
NO	

#### SUMMARY

This proposed amendment to the Constitution provides that the use of revenue from fees, duties, excises or license taxes relating to the registration, operation or use of vehicles, on public highways or to fuels used for propelling such vehicles, except revenue from any excise tax imposed for the privilege of registering such vehicles in lieu of local property taxes, shall be for highway purposes only.

#### QUESTION NO. 3

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court

in a joint session of the two branches held June 6, 1946, received 243 votes in the affirmative and 0 in the negative, and in a joint session of the two branches held June 3, 1948, received 231 votes in the affirmative and 9 in the negative?

YES	
NO	

### SUMMARY

This is an amendment of Article XVII of the Amendments to the Constitution. It provides that in case of a failure to elect the secretary, treasurer and receiver general, auditor or attorney general of the Commonwealth, or in case of the death of a person elected to any such offices between the day of election and the third Wednesday of the following January, such an officer shall be chosen by a joint ballot of the senators and representatives from the people at large, instead of from the two persons who had the highest number of votes at the election as is now required. It also provides that if there is a vacancy in any of such offices during a session of the Legislature the vacancy shall be filled in like manner by choice from the people at large, but if the vacancy occurs at any other time it shall be filled by appointment by the Governor, with the advice and consent of the Council.

### QUESTION NO. 4

Do you approve of a law summarized below which was disapproved in the House of Representatives by a vote of 84 in the affirmative and 130 in the negative and in the Senate by a vote of 15 in the affirmative and 22 in the negative?

YES	
NO	

### SUMMARY

This measure by amending General Laws (Ter. Ed.), Chapter 272, Section 21 provides that the provisions of Sections 20 and 21 of said Chapter 272 which make it an offense to advertise or give information as to the procurement of means for the prevention of pregnancy or conception shall not apply to treatment or prescription given to married women by registered physicians for protection of life or health.

### QUESTION NO. 5

Do you approve of a law summarized below which was disapproved in the House of Representatives by a vote of 5 in the affirmative and 203 in the negative and in the Senate by a vote of 0 in the affirmative and 36 in the negative?

YES	
NO	

### SUMMARY

This measure prohibits the denial of the opportunity to obtain or retain employment because of membership or non-membership in a labor organization and prohibits agreements which exclude any person from employment because of membership or non-membership in a labor organization. Violation of the provisions of the measure is made an offense punishable by fine or imprisonment or both.

### QUESTION NO. 6

Do you approve of a law summarized below which was disapproved in the House of Representatives by a vote of 82 in the affirmative and 126 in the negative and in the Senate by a vote of 13 in the affirmative and 20 in the negative?

YES	
NO	

## SUMMARY

This measure requires that elections of officers of labor organizations shall be held at least annually. Sixty days' notice of a regular election and twenty days' notice of an election to fill one or more vacancies are required to be given by public announcement at a regular meeting, by notice in writing to each member, or in any other adequate manner. Candidates to be voted for must be nominated by a paper signed by ten members filed at least thirty days before a regular election and at least ten days before an election to fill a vacancy.

The voting at such an election must be by secret written or printed ballot. Watchers appointed by nominating members and by union officers may be present during the voting and counting of ballots.

Coercion and intimidation of members in connection with an election is prohibited, and violations of the provisions of the measure are made punishable by fine of not less than twenty-five dollars nor more than two hundred dollars or by imprisonment for not more than thirty days or both.

## QUESTION NO. 7

Do you approve of a law summarized below which was disapproved in the House of Representatives by a vote of 95 in the affirmative and 110 in the negative and in the Senate by a vote of 14 in the affirmative and 18 in the negative?

YES	
NO	

## SUMMARY

This measure prohibits the calling of a strike by a labor organization in any business or plant or unit thereof, except when authorized by the vote of the majority of all the members of the organization employed in the business, plant or unit thereof. Such authorization is to be expressed by a secret written or printed ballot at a meeting called for that purpose.

The Labor Relations Commission is authorized to make rules for the conduct of the voting. Within twenty-four hours after the voting the labor organization conducting it shall make a written report of the result to the commission, which shall be a permanent public record. If no report is filed the vote taken shall be void and a person making a false report shall be guilty of perjury.

Coercion and intimidation of members of a labor organization in connection with such voting is made a penal offense.

## QUESTION NO. 8

Is it desirable that the proposed amendment to the Constitution of the United States,—

## “ARTICLE”

“SECTION 1. No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President, for more than two years of a term to which some other person was elected President shall be elected to the office of the President more than once. But this Article shall not apply to any person holding the office of President when this Article was proposed by the Congress, and shall not prevent any person who may be holding the office of President, or acting as

President, during the term within which this Article becomes operative from holding the office of President or acting as President during the remainder of such term.

"SECTION 2. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission to the States by the Congress,"—be ratified by the general court?

YES	
NO	

### QUESTION NO. 9

To the Members of the School Committee of the Town of Swampscott, Ladies and Gentlemen:

I submit herewith my seventeenth annual report as Superintendent of the public schools of the town.

From time to time there arise circumstances that turn one's attention in a specific direction. At the present moment we are confronted by overcrowded classrooms in certain areas, and by the prospect of even more serious crowding of existing facilities in the near future. It seems time, therefore, to explore existing physical conditions, to examine into the causes of the congestion, and to attempt to draw conclusions both as to the permanence of that condition and as to what steps may be needed to relieve it.

The causes of present congestion are several. During this current school year kindergartens were established in each of the four elementary schools. The net result of this has been to increase our requirements by one classroom in each building and to add one hundred thirty-five pupils to our total enrollment. The abrupt increase on this account has unfortunately coincided with the nationwide trend to larger enrollments in all primary grades, a trend of which we are feeling our own small portion of effect. In September, therefore, we got not only a normal increase from this trend, but a double increase in demand for facilities because of the kindergartens.

The permanency of these increases we can estimate only partially. The demand for continuance of the kindergarten is assured. A community of the type of Swampscott does not surrender advantages of this type, once gained. At the same time, the trend for school enrollment to increase nation-wide is somewhat the result of the war, and will presumably ultimately reach a levelling off point. That, however, does not of necessity mean subsequent shrinkage back to present or pre-war levels. On the contrary the demand for new residential housing for young families indicates the establishment of a new level of school population rather higher than at present.

One generally may refer to the birthrate in attempting to predict the growth or shrinkage of school population, and find a trend upward or downward in the one followed by a corresponding trend shortly afterward in the other. This has occurred formerly, and is apparently due to occur again, in Swampscott. For example.

Average births per year, 1934-1938 inc. ....	99
Average no. of pupils entering grade one, 1940-1944 inc. ....	102
Average births per year, 1939-1942 inc. ....	130
Average no. of pupils entering grade one, 1945-1948 inc. ....	129

In other words, an average of approximately one hundred births a year over a five-year period has resulted in an average of approximately one hundred entrants in grade one over a corresponding period six years later; and an average of one hundred and thirty births each year over a subsequent four-year period has resulted in entering classes averaging just about one hundred and thirty pupils over a corresponding period six years later.

In drawing conclusions in such a matter one may not safely be too specific, and dependence on percentage increases is dangerous. However, depending on such a method, one arrives at an entering class of nearly two hundred in grade one by 1953, for the birthrate in 1947 was forty percent above that of 1942. Here is a figure remarkably close to the five-year average of 183 births each year, 1943-1947 inclusive. Certainly, therefore, arriving at similar answers by the two processes, one may be justified in predicting that we should prepare for not less than an average of one hundred eighty first grade pupils a year from 1949 through 1953; and this expectation, of course, requires more than that number towards the end of the period. The situation is shown graphically on the accompanying chart.

Theoretically, here is an increase of two first grades of perhaps thirty pupils each; and such would be the actual case if the pupils should all live in the same neighborhood. Unfortunately, they will not. They will be spread all over town, and almost inevitably we shall be establishing not two additional first grades but four—one in each building. And because all of these children will have attended our kindergartens, there will already have been established several more of these classes since they are now at capacity in at least three buildings; while shortly afterwards the second grades will feel the result and there will be a crying need for expansion there. And so, ad infinitum, to a stopping point not easy to foresee.

Obviously we are not ready to receive such an influx. We have available one room in the Machon School, one in the Clarke School, and one in the Stanley. The Hadley School has no spare room left at all, and it is in this district that the most serious condition exists. This building could be relieved by transfers to the Stanley School if Forest Avenue were suitable for winter travel through the Whitney Estate, but it is not.

One fortunate circumstance has made possible a temporary and partially satisfactory solution of the Hadley School situation. At the moment the Junior High School is at its lowest enrollment point in years. This condition has made possible using two rooms in the Junior High building as elementary classrooms this year, but this relief cannot continue because the Junior High School is due to become larger almost immediately. This we can tell by observing elementary school enrollments throughout the town.

Consequently we are faced with the fact that on the basis of all observable evidence, within two years we are not going to have room in those two buildings to house the pupils attending Junior High School and the Hadley elementary. Indeed, we shall be hard put to accommodate them next September. The only immediate solution to this situation is to transfer the ninth grade to the Senior High School.

At the moment such a transfer can be made. The High School was planned to care for six hundred pupils when all possible facilities in the building are in use to utmost capacity, a figure now reduced somewhat because we have transformed a spare classroom into a music room. There are approximately three hundred and eighty pupils there now. For a year or two, prospective ninth grades will contain about one hundred twenty-five pupils. Their transfer would

*Relationship of resident births to enrollment in Grade One.*

therefore, carry the building over the five hundred mark. In general, the equipment as it stands is adequate. The only obvious shortage of furnishings is clothing lockers, of which there are at present about 440.

By authority of the last annual town meeting a committee is at work determining the cost of a gymnasium at the Junior High School. A gymnasium at that location is, of course, a crying need, but its erection will do nothing to meet the need for classrooms. It is my hope that this committee may see its way clear not only to carry out its specific task, but likewise to interest itself in studying the needs of the Hadley School as a whole. It seems quite within possibility that the whole process might be accomplished by one building project that would be an architectural whole, at considerable financial advantage to the town.

Our other buildings present their individual problems, pressing enough but not reaching the critical stage as at the Hadley School. There is still an unused classroom at the Stanley School. This building was planned to have another wing added between the auditorium unit and Forest Avenue. Factors that would force quick attention to this building would be the acceptance and improvement of Forest Avenue as a public way through the Whitney Estate, and the opening up of that property to home building. If Forest Avenue were a safe and passable thoroughfare in winter travel, the Stanley School could now be made to serve children living in the Shaw Estate, for it is nearer to them than is the Hadley School.

The Machon School at the moment seems adequate for its population. It has one spare room. The erection of a Veterans Housing Project in the area may, however, bring a sudden change of conditions. There seems to have been no thought of a future expansion when this building was planned. Structurally the building is sound, and its extension is worth architectural study.

The Clarke School is a building that should be replaced. It was erected in 1906 and its design, while characteristic of the period, would not be permitted by State authorities today for a number of reasons, among them the arrangement of its stairways. It needs much attention in the matter of maintenance. Over a period of fifteen years its heating system and toilets have been modernized. Just before the war we insulated the attic and began to replace its floors, but we were not able to complete this job because of scarcity of materials. This year we installed new stair treads and remodeled a room for the kindergarten. Next year the building must be redecorated inside. In the immediate future we must install new lighting and lay the rest of the floors. I estimate the costs on these projects to be: Painting, \$2500; new lights, including necessary rewiring, \$4500; floors, \$2500. I daresay the cost of these projects, plus that of the toilets and heating system represent a sum not too far removed from the original cost of the whole building when it was new.

With all these projects completed we still shall have an old building, and there is no indication that its facilities will be adequate. We know, of course, that it lacks entirely an assembly room of any type, which is essential space for any modern school, but I am not referring to that lack. I speak of pupil seating capacity. Our recent census shows that within three years we may expect fifty children to enroll in this building from the Plymouth Avenue area alone. I suggest, therefore, that now is the time to consider whether it is the greater wisdom to spend money on patching up a structure that owes us nothing and may not be sufficient when patched, or to set about replacing that structure with one that will be up-to-date and adequate in every respect.

In September we opened kindergartens at the Clarke, Machon and Stanley Schools. It must be frankly admitted that the demand for this type of class had been under estimated. A survey in the late spring indicated children enough for those three classes and for still another class in the Hadley School district, but the problem of available classrooms in that area offered a serious problem. This was finally met by taking advantage of the estimated low Junior High School enrollment and transferring the fifth grade to that building.

The early start in equipping the first three rooms made possible opening them fully equipped, but with close to capacity enrollment. For the Hadley School, certain items of furniture have been greatly delayed and have not yet arrived. We are making out temporarily with fill-ins—some our own discards and some borrowed. We are not well off for kindergarten rooms. We are using ordinary classrooms made as attractive as redecorating could make them. They are not large enough for a modern kindergarten, are not decorated as such a room would be, and lack certain lavatory and toilet facilities customarily included in such a unit. They should be viewed as temporary quarters, and additions or alterations in any elementary buildings ought, in my judgment, to include new rooms for these classes as a necessity.

Coincidental with the establishment of kindergartens a slight adjustment was made in the entrance age to school. A pupil admitted to kindergarten must have his fifth birthday during the calendar year in which the school year starts. Logically, therefore, a pupil

entering grade one must reach his sixth birthday during the corresponding period. The net result is to require that a child be two months older than formerly in entering grade one. This is a regulation quite in keeping with the average practice in systems where kindergartens exist, investigation showing that more than half of those systems require that degree of chronological maturity, or more. Furthermore, it coincides with the opinion expressed by our primary teachers and principals that the youngest of our entering pupils have been too often handicapped by a lack of maturity to progress at a rate comparable to their older classmates.

\* \* \* \*

In November our Junior and Senior High School lunch counters became participants in the Federal Lunch program. This assures them a subsidy from Federal funds to the extent of four cents for each balanced lunch served in accordance with certain standards of nutritional values. There were two substantial reasons for entering on this program: the certainty of serving to pupils a better lunch at less cost, and the necessity for increasing our income.

That the first aim has been attained is already evident. Sales of hot-dish lunches have already increased noticeably with the improvements in quality and size of servings without increase in cost. The need for additional income has been obvious for about three years. Over that period the surplus that had been built up in the lunchroom accounts has been nearly dissipated in the attempt to keep down the cost to pupils and still maintain quality and quantity. This has been a losing fight which we hope will be stemmed by the receipt of the Federal funds and the opportunity to use supplies at little or no cost from the Federal "abundant foods" list.

In September we established speech classes at the High School for the first time. Although we had no doubt in our own minds as to the value of such classes, neither Mr. Dunn or myself had anticipated the interest they would be to pupils. Our expectation had been a trial class of perhaps twenty pupils. Instead, more than a hundred enrolled, of whom about twenty eliminated themselves later when they discovered either that program difficulties made the election impossible, or that what they had expected to be a lark was going to be a course requiring a considerable amount of hard work. The work is now going forward with enthusiasm.

In his annual report to me Mr. Dunn comments in this way about the course: "I believe that it is one of the most important subjects that we are offering to the student body. It is designed to make all pupils more effective when they converse among themselves and meet in social and economic ways. It affords training in thinking and helps to develop personality. It has proved to be a course that ties in closely with other curricular activities such as guidance, social activities, English and dramatics."

Meanwhile our Audio-Visual Education program has made substantial progress. Equipment has been improved and the amount of use made of it substantially increased. By the end of this school year we shall be in excellent shape in that regard. Meanwhile six or eight teachers have been attending professional courses in that field, which will without doubt open up to them new opportunities and new understandings of the possibilities of this kind of teaching aid. Although Mr. Rathbone, who did the first organizing of this department, left us during the summer, his successor, Mr. Walter Drogue of the High School faculty, has picked up the task with enthusiasm.

\* \* \* \*

During the year we accomplished some rather substantial repairs. The entire cast-stone trim of the Junior High School was repaired by cutting out and filling defective areas, of which there were many, and applying a surface treatment. Rooms at the Clarke, Hadley and Machon were completely renovated for kindergarten use gutter repairs were made at the Clarke School, and a broken roof drain replaced at the Hadley. In the High, Junior High, Machon and Clark Schools other classrooms were redecorated. A chain link fence was erected on the south property line of the Junior High School, abutters paying half the costs. The play area above the Machon School on Burpee Road was surfaced and a fence erected along the sidewalk line. The crumbling entrance steps at the rear of the Hadley School were broken out and entirely replaced. New non-skid stair treads were installed on the main stairway at the Clarke School. Approximately three hundred pupils' desks, and most teachers' desks at the Clarke and Machon Schools, have been refinished. The flagpole at the Machon School was moved from its inconvenient place on the roof to a more accessible location on the Essex St. front of the building.

I feel that the following are essential projects for 1949:

New auditorium curtain and draperies at Stanley School.  
 Repair of chimney at Junior High School.  
 Redecorating of auditorium at Junior High School.  
 Installation of emergency lights at Junior High School.  
 Interior wall repairs and redecorating of two rooms at Junior High School.  
 Interior painting, complete, at Clarke School.  
 Repair of concrete work (flagpole base, sidewalk, steps and certain window sills) at High School.  
 Redecorating of corridor at Machon School.  
 Dedecorating of several rooms at High School.  
 Installation of new lighting in Grade 4 at Machon School.  
 Repair of switch board, High School auditorium.  
 Adjustment of ventilation, High School auditorium.  
 Repair of roofs, Machon and Hadley Schools.  
 Fireproofing of all auditorium draperies in every school.  
 Painting exterior, Hadley and Junior High.

There had been several events worthy of note in connection with our athletic program. During the summer Mr. George Hutchinson, who had for many years carried on the activities at the Junior High School, indicated his desire to relinquish these duties. We were loathe to lose Mr. Hutchinson's services in this connection, and arrived, we think, at a happy compromise that promises to be to the advantage both of Mr. Hutchinson and the High School. With John McLaughlin of the High School faculty taking on ninth grade athletics, Mr. Hutchinson agreed to carry on with grades seven and eight on an intra-mural basis. Mr. McLaughlin will coordinate his work with that of the High School coaches, thus, we hope, sending boys into the high school picture better trained in the necessary fundamentals.

With the opening of the football season the long-awaited field house became available at Blocksidge Field, and our football teams were able to make it their headquarters. The location of needed facilities at the field has proven to be a distinct asset much appreciated by the coaches and the team members. Although in its original condition the building contained no fittings for the care of equipment, these items have been provided by funds from the Athletic Association. Mutual agreement between the Park Commissioners and High School authorities provides that care of equipment shall be the duty of the High School, while cleaning and sanitation shall be the care of the Park Department.

By action of the last state legislature, the way was opened for the first time for School Departments to provide insurance to cover essential bills for injury to pupils engaging in athletic contests or other supervised school-sponsored activity in the physical education program. As of mid-August the School Committee put such a policy in effect. It provides reimbursement up to \$500 for medical, surgical or nursing expense due to an accident (except to natural teeth, in which case the coverage is much less) occurring to Junior and Senior High School pupils in physical education activities, football, baseball, field or ice hockey, basketball and golf. As of December 23 there have been forty-four claims made under this policy, all of which have been paid in full to a total of \$379.00.

In addition to this insurance the School Committee has felt that security against financial loss warranted the placing of theft insurance on band instruments, typewriters and office machines owned by the Department and valued at well over \$10,000, and on athletic equipment when it is at the field house.

At the close of school in June we lost by retirement three teachers who had been with us many years: Miss Anna Willey of the Hadley School, Miss Amy Thissell of the High School, and Miss Mary I. Perkins, Principal of the Machon School.

Whenever a teacher of such standing as these withdraws, there seems to remain in a school system less and less of that intangible something which was characteristic of the part or which exists in the present only in an altered and diluted form. Its definition is not easy. Certainly most teachers today have entered into and continue in their profession out of sheer love of teaching and a devotion to children. Their numbers are overwhelming in comparison to those whose purpose is to teach merely to make a living. Yet whenever one comes in intimate contact with such teachers as Miss Willey, Miss Thissell and Miss Perkins, the quality which stands in boldest relief and which so indefinably marks them as different is their utter unselfishness and devotion to their self-chosen tasks. The hours in their classrooms are never too long. The additional tasks which they assume, the uncounted hours of unscheduled work which they spend that their duties may be better performed, the conscientious attention to detail and perfection which they give, all these are to them the elements to be rendered as a matter-of-course and without thought of reward other than that which they share through the success of their pupils.

It is ironic comment on the attitude of the public-at-large country-wide that it has smugly accepted such services over the years as worthy of no other reward. One of the teachers in question taught her first fifteen years for a remuneration ranging between \$350 and \$950 a year. At the end of forty years she had still not attained a salary of \$2000. How nice it is that she was so constituted that she could find her recreation in her profession and her satisfaction in the progress of her pupils! And how fortunate it is for her that, during the last four years of her service, those who could not live on satisfaction alone became so few that finally some resemblance to adequate remuneration came to her, lest she too give up in despair and there should be none to take her place!

\* \* \* \*

Other teachers who withdrew from our system during the year are Robert Rathbone, teacher of English at the High School, who has joined the faculty of Massachusetts Institute of Technology, and Miss Marjorie McDougal who was married. New teachers are:

- Mrs. Joan Curtis, from Lesley College, to Machon School kindergarten.
- Miss Ann Combs, from Marblehead, Mass., to Clarke School Kindergarten.
- Mrs. Helen Hudson, from Clarke School grade one, to Hadley School kindergarten.
- Miss Barbara Young, from Topsfield, Mass., to Stanley School kindergarten.
- Mr. Arthur Crosbie, from Dean Academy, to High School English Department.
- Mr. John I. McLaughlin, from U. S. Navy, to High School History Department.
- Mrs. Cecelia Loring, from substitute list, to Machon School grade one (temporary).
- Miss Jeanne Lepine, from Hyannis, Mass., to High School Foreign Language Department.
- Mrs. Claire Murray, from substitute list, to Hadley School assistant (temporary).
- Mrs. Elizabeth Hahn, from Boston University School of Education, to Reading Consultant, all grades.
- Miss Madelaine Murphy, from New Britain, Connecticut, Teachers College, to Principalship of the Machon School.

\* \* \* \*

One hesitates to speak of increases in cost these days because the situation in that respect has become matter-of-course. However, it seems to me wise to point out that salaries alone in the extra classrooms made necessary by the kindergartens and our overcrowded grades are adding about eight thousand dollars to our budget over the figure for last year, and the normal step increases amount to more than \$3,000 beyond that.

The following excerpts from the report of Mr. Dunn, Principal of the High School, will be of interest to you:

"A high school in this mid-20th century has many tasks to perform. In a suburban community, such as Swampscott, the high school must of necessity, be strong in its college preparatory curriculum. Whereas the percentage of those in our school that will continue with academic, or liberal education, is much higher than the national average, our task is more than to prepare for a furtherance of this type of education. For a large percentage of the student body,—approximately 50% —high school comprises terminal education. If such is not the case, there often follows a comparatively short period of training in specific vocational skills. More and more it is becoming apparrant that the chief justification of college education on the four year level is when the objective is preparation for professional training. The challenge to us teachers is quite clear. We must give more and more attention to individual problems and needs. This includes vocational guidance and individual counselling. It is the intention of our teachers to stimulate vocational interests and to seek out the interests of pupils. We arrange for vocational talks to the students by representatives of different occupations. In a school of this size, too, each individual has an opportunity to avail himself of counselling from individual teachers in the school.

#### Academic Achievement

Among the colleges now being attended by the Class of 1948 are the following:

Boston University	Radcliffe
Brandeis	Regis
Brown	Rhode Island State
Colby	Simmons

Colby Junior College	Tufts
Dartmouth	University of Maine
Harvard	University of Massachusetts
Jackson	University of New Hampshire
Lesley	Wesleyan
Northeastern	Wheelock

That Swampscott High School has won the confidence of many of our leading colleges is due to the efforts, over a long period of years, of an efficient faculty, the efforts of my predecessor Mr. Gray, and the records made by Swampscott High School graduates. The latter are among the outstanding students, and are attaining scholastic honors at present in the following institutions: Harvard, Dartmouth, Radcliffe, Tufts, Jackson, Colby, Rhode Island State, Smith and Vassar.

Indicative of the high level of scholarship being maintained in the colleges by our graduates, is the record of three boys in the Class of 1951 at Dartmouth. Dean Morse of the freshman class notified the school last May, that of the seven ranking schools in the country, represented in that class, Horace Mann School for Boys stood first with an average of 3.03 and Swampscott High School second with an average of 2.93.

#### National Honor Society

Our faculty has voted to enroll our school in the National Honor Society. There are nearly 4500 member schools throughout the country. This action was taken to stimulate scholarship in the school. It is a distinct honor for a boy or girl to attain membership in this organization. Mr. Brooks Blossom is the faculty adviser."

## Board of Health

---

To the Citizens of the Town of Swampscott:

The Board of Health herewith submits its report for the year ending December 31, 1948 together with those of its various officers.

During the past year there were 586 communicable diseases reported which was an increase of 141 over the number reported during the year 1947. Chicken pox, Measles and Mumps are still the prevalent diseases. In December, 41 cases of Chicken pox were reported. In June, July and August 228 (out of 237 for the year) cases of measles were reported, in January, February, March and April, 191 cases of Mumps were reported.

There was 1 new case of pulmonary tuberculosis reported, 1 death was attributable to this disease and at the present time there are 3 patients receiving treatment at Essex Sanatorium.

3 cases of cat-bite were reported which is unusual for the Town.

The number of cases of Scarlet Fever and Whooping cough decreased from the preceding year.

There was 1 case of Infantile Paralysis which was diagnosed at Salem Hospital and reported to the State by Salem.

We are pleased to report that there was not a case of Diphtheria in town although it was prevalent in other communities.

At this time we again want to strongly recommend that parents of those children who have not been immunized against the disease see that their children are given this protection at the earliest opportunity. We suggest that you consult your family physician for further information about any type of immunization.

41 residents and 7 non-residents were bitten by dogs in our town this year. Fortunately none of those bitten required Antibiotic treatment.

Our Rabies clinic was held again this year by Dr. John J. Nilan and proved quite popular with the towns people.

375 dogs were inoculated against rabies this year.

We continued our School Tuberculosis Clinics this year and out of a population in the High School of 376, 86.9% or 327, were tuberculin tested and it was found that 3.9%, or 13 reacting. Accordingly these 13 were X-Rayed and it was found that one had an arrested child-type of tuberculosis.

At the same time 12 contacts and 95 of the personnel of the Schools were also X-Rayed.

All mosquito breeding places were oiled with the cooperation of the Park Department and their Commissioner Frederick C. Burk, and little trouble was experienced with mosquitoes throughout most of the town.

We are still investigating and checking the water supplied by wells to the residents of the Foster Pond Area and within the next few months samples will be taken through the cooperation of the state and a bacterial count made of same.

The conditions along our beaches was again very poor, what with coal dust, garbage, oil slick, old lumber and other objectionable floating matter especially noted during the bathing season and also to be found quite regularly throughout the year. These conditions are still being investigated by a commission appointed by the legislature and we hope that through their investigation and our continued efforts that the situation will be remedied, so that the nuisance is abated.

During this last year the number of complaints for rubbish collections decreased which can be directly attributable to the new contract which went into effect on January 1, 1948 under the terms of which the contractor will remove any waste material provided the barrel or other receptacle or bundle is of such size or bulk that it can be handled by one man. Our complaints received for the collection of garbage shows a slight increase but this is inevitably due to the long, cold winter and the almost impossibility of removing frozen garbage from receptacles, and the inaccessible containers.

There was no emergency sewer construction in 1948. This coming year we are co-sponsoring 2 articles. One, for Pitman Road and one, for Blodgett Avenue.

During the year 6 of our boys who paid the supreme sacrifice overseas were returned for burial in their home town.

On August 26, 1948, Clarence W. Horton, who had been your Health Officer for the past 3 years, passed away. "Cobby" as he was known to most of the people in town, had been instrumental in providing many of our present Health Laws and a large number of the Milk Laws as existing today. Through his leadership the records on file in this department have been a model for a great many other communities. The town has lost a very valuable public servant and it is with regret that we include this paragraph as part of our report.

On September 1st, G. Jeffrey Nichols resigned as a member of the Board of Health. Because of Mr. Nichol's resignation a joint meeting was held with the Board of Selectmen on September 9th and E. Wallace Donald was appointed to fill the vacancy for the remainder of the year. On September 9th, G. Jeffrey Nichols was appointed as Health Officer and Milk Inspector of the town.

Respectfully submitted,

LORING GRIMES, M. D., Chairman  
H. ALLEN DURKEE  
E. WALLACE DONALD

## Dental Clinic

---

To the Board of Health:  
Gentlemen:

Herewith is submitted a report of the activities of the Dental Clinic for the year ending December 31, 1948:

The dental condition of the Swampscott school children is far above the average of the state, ranks well up the top. It shows the results of our ceaseless efforts and speaks for itself. The new kindergarten class entering this year means that every child will have an extra year of dental care and supervision and should show definite results later.

This is the second year your clinic has been using general sodium flouride treatments and conditions should be reflected from now on showing its benefits.

When your clinic was started, the large number of seventy to eighty permanent teeth were removed annually. Now, the removal of a permanent tooth is a rarity and occurs generally when a child moves into Swampscott from another city or town.

Below is a summary of work done during the past year:

Extractions (permanent teeth) .....	4
Extractions (temporary teeth) .....	64

## Bureau of Old Age Assistance

To the Citizens of Swampscott:

The Bureau of Old Age Assistance submits herewith its report for the year 1948.

The provisions of Chapter 638 of the Acts of 1948, approved by the Legislature, had the effect of trying public assistance payments on Old Age Assistance and Aid to Dependent Children to the cost of living, using the State Standard Budget figures in use on July 1, 1948 as a base. The new law requires a semi-annual check by the Division of the Necessaries of Life to determine the over-all change in the cost of living and should this survey show an increase or decrease of 5% or over, all assistance payments must be adjusted by the same proportion. The survey, completed in September 1948 showed an over-all increase of 8.3 percent and all budgets in our Old Age Assistance and Aid to Dependent Children departments were increased accordingly on October 1, 1948. This change is reflected in an average monthly grant of \$63.06 in December 1948 as compared to an average of \$59.26 in December 1947.

A further change in the law enacted by the 1948 Legislature required that all grants be paid in advance on or before August 28.

1948 and this change was effected in all departments on August 15, 1948. This change added an extra semi-monthly grant to our expenditures in 1948.

Federal reimbursements on Old Age Assistance were increased by approximately \$5.00 per case monthly, effective October 1, 1948.

We again wish to express our deep appreciation of the splendid co-operation we have received during the past year from the Swampscott Community Service, from Miss Sylvia Chesley, the Visiting Nurse and from Chief Francis P. Wall and the members of the Swampscott Police Department for their excellent service in moving patients to and from Hospitals, Convalescent Homes and State Institutions.

# Committee On Return Of Deceased Soldiers

## SWAMPSCOTT HONORS SOLDIER HEROES

The Committee, appointed by the Board of Selectmen, "to see that proper recognition and honor is given to the bodies of all war heroes who are returned to Swampscott . . ." has faithfully performed its duties. In every case the wishes of the family of the deceased soldier were ascertained. Full civic and military honors were accorded the deceased soldiers.

The committee, accompanied by a uniformed guard of honor, composed of veterans of World War I and II, American Legion, Veterans of Foreign Wars, met the U. S. Army Detail at the railroad station and escorted the casket to the home of the soldier, or a funeral home, where it remained until the day of the funeral.

A floral tribute was sent in the name of the people of Swampscott. On the day of the funeral the Committee accompanied by a Guard of Honor of uniformed veterans of the American Legion, Veterans of Foreign Wars and a firing squad detailed by the Army, Navy, or Marine Corps, attended religious services in the Church or home. The ceremony at the grave was most impressive, surrounded by family, friends, and comrades in the service. The military uniforms, national and Post colors, together with the firing squad and bugler of the regular army or navy, with the mass of beautiful flowers in the background made a scene long to be remembered. After the committal, the last rites of the soldier, the three volleys and the sounding of Taps, the national colors which had draped the casket of the soldier were folded and presented to the mother or member of the family as a precious memorial.

## Board of Park Commissioners

---

To the citizens of Swampscott:

The year 1948 saw the major project of the Field House at Phillips Park completed in time for use by the High School and Junior High School football teams.

The building was well built and the facilities it offers seem entirely adequate for the purpose.

We were also fortunate during this past year in securing enough fill from the resurfacing of Salem Street to completely fill the swamp behind the football field. Now, by doing some rough grading and supplying a cover of loam we can put into operation a baseball diamond sufficiently large to take care of the Junior High baseball and to give smaller youngsters adequate baseball playing space. This also will supply the need for more adequate football practice space for High and Junior High teams.

During the coming year we should be able to install a full sized grass diamond which will relieve the pressure on the Jackson Park field and permit us to resurface and reseed this area.

We were able this past year to open up a road into Jackson Park from the Greenway which gives direct access to the Hockey rink and which also will permit easier entrance to the Park in case of woodfires.

The entire area of Jackson Park has been the subject of a major project to clean up bull briar and brush along with a comprehensive limbing job to give more open vistas and to give added protection against wood fires.

This cleaning up work will continue as weather permits and we feel that townspeople will find better facilities for picnics and be better able to make use of this wooded area.

Blaney Beach again proved to be one of the more popular beaches in this area and consequently was constantly overcrowded. The two lifeguards were kept busy and certainly did an excellent job of patrolling this beach.

The parking space with its limited area presents a problem each year as the demand for space far exceeds capacity. We regret that we can't satisfy all who come to park here but our limited facilities cannot be expanded.

The first aid room, sponsored by the Lions Club, was busy all summer and Mrs. Kehoe and the lifeguards did a fine job here. However, there is a definite and great need of full time trained personnel to be in attendance in this first aid station. We and the Lions Club would welcome volunteers for this job.

The recreational project which taught baseball at Jackson and Phillips Parks and swimming at the beaches was worth the money spent and will be expanded during 1949 and be under better direction.

The Upper Swampscott Improvement Association donated prizes for attendance and excellence in baseball and swimming and thus was instrumental in promoting interest in these projects. This association has been the most helpful single agency in town in helping the Park Department to curb vandalism to promote better playing conditions on our parks and in fostering adequate supervised recreational projects.

The Tree division was kept busy on spraying schedules from early spring to cold weather and despite being handicapped by low manpower kept pace with the constant tree trimming schedules in force each year.

Constant surveys by Superintendent Burk and by the State and Federal agents plus periodic spraying have kept the town clear of Dutch Elm disease. We will continue to keep a careful check on our elms for evidence of this infestation and will do our utmost to keep the town's record clear.

Japanese beetles are multiplying and may threaten this town with a severe infestation. From our observation these beetles favor no particular flower, shrub, tree or type of grass but may be found anywhere. Our use of chlordane has been successful in controlling the beetles wherever we have found them. We earnestly entreat townspeople to report Japanese beetle infestations to us in order that we may be given the opportunity of applying control measures.

During 1948 the planting of memorial trees on the grounds of the Administration Building was completed. The following names were added to the list:

Floribunda roses	}	donated by the Camp Fire Girls of
Carmine crab		the Greater Lynn Council
Golden rain tree		donated by the Swampscott Garden Club
River birch		in memory of John Corrado
River birch		in memory of Gerald J. McGettrick
Tree wistaria		in memory of Charles V. Easterbrooks
Umbrella pine		in memory of Hattie M. Chandler
Austrian pine		in memory of Annie Holden Doane
Asiatic larch		in memory of William T. George
Douglas fir		in memory of Bernard B. Kennedy
Rocky mountain fir		in memory of Everett P. Mudge

The Board of Park Commissioners want to take this opportunity to express their sincere thanks to the Highway Department, the Water and Sewer Department and the Cemetery Department for their help and cooperation during the year and especially for their most valued aid in moving and setting up the bleachers loaned to the Park Department for the Thanksgiving day game.

We are also most beholden to the Town Engineer and his men for their enthusiastic work in supplying the engineering information and field work necessary for successful accomplishment of many park projects. A complete topographical map of Phillips Park and the entire surrounding area is under way and will be ready in 1949.

We have enjoyed working with the School Department and we will do all that we can to keep this cooperative spirit alive.

Many thanks to the Marblehead School Department for their fine courtesy in loaning us the extra bleachers for the Thanksgiving day game. Also we were given the aid of the entire Tree and Moth Department of Marblehead under Mr. Loring Clark, not only in this project, but also in the many problems of moth control and tree work.

To the many other individuals and to the townspeople as a whole who have so often aided us and demonstrated their confidence in us, we express sincere thanks and our appreciation.

Respectfully submitted,

JOHN HOMAN,  
RALPH I. LINDSEY,  
FREDERICK C. BURK,

Board of Park Commissioners.

### DEPARTMENTAL EQUIPMENT

The equipment of this department is regularly inspected and no effort is spared to have it ready for instant use at all times.

During the year the efficiency of this department was immeasurably improved by the acquisition of a Mobile Police Telephone System, which has already been installed and tested, and is now in actual operation. Many of the larger towns and cities of the Commonwealth now have such a system in use, and its results are very satisfactory. It is an invaluable asset to the town and a great contribution to the guarantee of public safety; and I wish to extend my sincere thanks to all those who made it possible for us to have it, including the Town Meeting Members; the Finance Committee and the Board of Selectmen.

### NATIONAL SAFETY AWARD

An honor was bestowed on this Town during the year by the presentation of a plaque by His Excellency, The Governor of the Commonwealth, Robert F. Bradford, for the outstanding record of being free from any fatality caused by motor vehicles for the five year period from 1943 to 1947 inclusive. We are one of only six municipalities in the entire Country so recognized and rewarded. The residents of our town may well be proud of this achievement.

### REPAIRS TO STATION

Much needed repairs and renovations were made to the interior of the Police Station, which is now greatly improved in appearance.

### RECOMMENDATIONS

I recommend:

- (1) That the Town purchase a new motor vehicle to be used as a patrol car, to replace the 1947 Ford Sedan now in use.
- (2) That the Town purchase a new motorcycle to be used for certain kinds of patrol and other work.
- (3) That there be appointed two additional patrolmen.

### APPRECIATION

I wish to express my sincere appreciation to the Board of Selectmen, to the members of my own department, to the officers and members of the Auxiliary Police, to all Town departments, and to all others who have co-operated with me during the year.

Respectfully submitted,

FRANCIS P. WALL,  
Chief of Police.

## Board of Assessors 1949

The Board of Assessors submit herewith all figures used by them in the determination of the Tax Rate and other figures of a statistical nature:

The property in the town assessed by the local assessors January 1, 1948 amounted to \$24,510.856, an increase over the previous year (1947) of \$302,018.

The Real Estate valuation January 1, 1948 was \$23,101,735, an increase over the previous year (1947) of \$287,805. The valuation of Personal Estate assessed by the local assessors January 1, 1948 was \$1,409,121, an increase over the previous year (1947) of \$14,213.

The Excise tax on motor vehicles and trailers for 1948 was \$63,713.43, an increase of \$20,734.85 over 1947.

We are sorry to report that Clarence B. Humphrey retired from The Board of Assessors during the year 1948, after having served the Town thirty years on that particular Board. Clarence B. Humphrey has served the Town in many capacities over a long period of years and always put service to the Town ahead of his personal desires. Through his retirement the Town has lost a staunch worker and very popular Town Official.

Respectfully submitted,  
**FRANK E. MORRISON,**  
**JOHN A. HOLMES**  
**ERNEST MANCHIN,**  
 Board of Assessors.

## Report of Planning Board

---

The Planning Board has held meetings as necessary during the year with the exception of the summer months. A large number of minor subdivisions and changes of subdivisions have been considered and approved.

The Zoning Ordinance and Map accepted by the Town at the last Town Meeting has been published in pamphlet form by the Board and is available at the Town Clerk's office for residents who need a copy.

A few minor modifications of the new law have been suggested and these are being presented to the next Town Meeting as articles in the warrant.

We have considered the advisability of preparing at this time an Official Map as authorized in Chapter 340 Acts of 1947 and have decided that at the present it is not necessary.

In our Master Plan prepared in 1943 and 44 we recommended the construction of a gymnasium for the Junior High School and felt at the time that the schoolroom capacity was adequate. Since then the birth rate has been climbing and based on a brief survey we feel that some action should be taken very soon on the matter of enlarged school facilities. It would seem to be an unnecessary waste of public funds to build a gymnasium if in 2 or 3 years we are going to be faced with heavy expenditures for enlarging or rebuilding the Junior High School. We recommend that this be referred either to the Planning Board or to a special committee for investigation and report on the probable needs of the town over the next 10 years so that intelligent action can be taken.

Additional space is needed in the Public Library and a study of the rearrangement required and estimated cost should be made, since there is adequate land available.

Respectfully submitted,

THE PLANNING BOARD

Ralph L. Williams, Chairman

James R. Maddock, Secretary

Gordon L. Brown

## Board of Appeals

---

Swampscott, Mass.

January 1, 1949

Honorable Board of Selectmen,  
Town Administration Building  
22 Monument Avenue  
Swampscott, Massachusetts

Gentlemen:

The Board of Appeals herewith submits its report for the year 1948.

It was with sincere regret that due to his poor health it became necessary for Conrad P. Richardson, Esquire, to resign as member and Chairman of the Board of Appeals, which office he held for over fourteen years. Mr. Richardson was always deeply interested in the

duties of the Board of Appeals and was meticulous in his fairness to all parties concerned, during his tenure of office. He took a great pride in setting up a record and filing system. The Town of Swampscott and the Board of Appeals in particular have already missed his able services.

Also it was necessary for the Clerk, Mrs. Dorothy M. Richardson to resign for the above reasons.

The Board of Selectmen appointed Mr. T. Paul Corcoran, Jr., to fill the vacancy caused by Mr. Richardson's resignation.

Miss Mary McDonough was appointed clerk to replace Mrs. Richardson and held this position until October when she also found it necessary to resign for business reasons. Mrs. Margaret M. Scanlon was then appointed as clerk of the Board.

At the annual town meeting of this year new Zoning By-Laws were accepted, and approved by the Attorney General on July 12, 1948, which resulted in new kinds of cases being heard by the Board of Appeals, heretofore heard by the Board of Selectmen. This together with the increased number of new dwellings which required approval by the Board of Appeals resulted in much more activity on the part of the Board.

During the year there were 25 appeals, three times the number of cases heard in 1946.

There were no cases heard before the Emergency Housing Commission this year. All cases to date have been disposed of.

Respectfully submitted,

C. GLOVER BOWES,  
EUSTIS B. GRIMES,  
T. PAUL CORCORAN

Board of Appeals.

## Dog Officer

Town of Swampscott

January 3, 1949

To the Board of Selectmen  
Administration Building  
Swampscott, Massachusetts

Gentlemen:

There were 910 complaints received by me concerning dogs within the town during the year 1948 all of which were investigated and remedied.

There were 496 dogs turned over to the Dog Officer, 458 being restored to their various owners and 38, proven to be stray dogs, were disposed of. Many dogs within the town have died during the past year, some being killed by motor vehicles, others died of natural causes.

All owners who had neglected to license their dogs as provided by statute have been notified and required to procure the necessary license. The total number of licenses issued during the year 1948 was 639.

Respectfully submitted,

Willis E. Shephard,

Dog Officer

## Contributory Retirement Fund

---

To the Citizens of Swampscott:

This is the twelfth annual report of the Retirement Board.

We suffered a severe loss when Clarence W. Horton, the employee's representative died on August 26, 1948. He was vigilant, aggressive and fearless in his efforts to secure greater benefits for the small wage earner, and was of great help in forwarding the goals we have in mind. We shall all miss him.

As stressed in our previous reports: the pensions to small wage earners, and their survivors, continue pitifully small, much lower than benefits under Old Age, or Social Security. Last year this board appeared four times before legislative committees at the State House, urging the payments of pensions sufficient to support a retired employee, and meet his minimum needs. We failed of our purpose, but we did convince the legislators that under our present laws, our pensions are not adequate, and are far below what is paid under Social Security and Old Age. It is now generally agreed that it is unjust to grant larger benefits to those who contribute nothing, and that some revision should be made of our pension laws so that the benefits will be sufficient to provide retired employees the bare essentials.

The State Association of Retirement Boards has introduced to the present legislature, several bills. It is attempting to secure the same treatment for veterans of World War II as are now granted veterans of the first World War. House Bill No. 985 has been filed, seeking to grant half pay to an employee who has had twenty five years service. The adoption of legislation of this type will go far to remove many of the existing inequities.

The Board has also caused to be placed on the Town Warrant an article permitting the Town Meeting members to vote on the acceptance of Chapter 558, Acts of 1948, which grants a \$200.00 increase to pensioners who retired before January 1, 1946, provided that the entire annual payment does not exceed \$1,500.00. The Association has introduced a bill before the legislature seeking to apply this principle to those who retired after January 1, 1946.

The inadequacy of present pensions is forcefully realized when we consider that of 14 pensioners, 8 receive less than \$50.00 per month. This is scarcely adequate to sustain a man and wife under present conditions.

This matter is of most vital interest to town employees, and it can only be corrected by bringing pressure to bear upon the members of the state legislature to secure the passage of legislation bringing town employees up to the benefits granted under Old Age.

Present indications are that it will be very difficult to secure increased benefits this year, as a number of bills, upon other subjects, calling for large appropriations of money, will likely pass, and the tendency is to postpone any legislation which does not have the support of a large and active group. However, it is our considered opinion that in time laws will be passed providing more equitable treatment of those in the lower pay brackets.

The Massachusetts Association of Retirement Boards has now placed itself on record as favoring more equitable treatment of

employees in the lower wage brackets, and this factor alone will add considerable weight to our pleas to the legislators.

However, we again urge each employee to exert himself in urging a correction of present laws, as it is impossible for a man after 20 years service with the town to support himself and his wife on a pension of \$50.00 per month.

## Town Engineer

To the Board of Selectmen:

Submitted herewith is the annual report of services rendered by the Engineering Department during the calendar year ending December 31, 1948.

### SANITARY SEWERS

New sanitary sewers were constructed in Burpee Road, Forest Avenue, and Pine Hill Road.

A new surface water drain was constructed on Pitman Road with the necessary catch basins for proper drainage.

The Engineering services required by the Sewer Department included preliminary surveys, completion of preliminary plans, estimate of quantities and cost of construction, preparation of specifications, designation of lines and grades in the field, supervision of construction, preparation of final plans, computation of final quanti-

ties and cost and computation of assessments. Record plans and descriptions of the necessary easements for these sewers and drain were completed.

### HEALTH DEPARTMENT

At the request of the Health Officer we have assisted him at various times in locating cesspools, and inspecting septic tanks in areas where there are no sanitary sewers.

### ASSESSORS DEPARTMENT

From time to time, as real estate transfers and land development plans became available, corrections were made on the plans in the files of the Assessors Department. This work included a study of over one hundred fifty abstracts and four land development plans.

### PARK DEPARTMENT

Engineering services required by the Park Department included designation of line and grades of the whole of Phillips Park and the areas adjoining said park for the purpose of making a master plan of the area for future study and planning. Lines and grades at this park were also given for grading the new field and erecting temporary football stands, and laying out an extra football field.

At Abbott Park lines and grades were given for the laying out of a girls' Hockey Field.

At Jackson Park, lines were given on the West side of the park for a new fence, supervision of the erection of a new baseball back-stop was made, and lines were given on the East side of the park off the Greenway. From time to time estimates were made for quantities of material necessary for grading at the different parks and play areas under the supervision of that department.

### POLICE DEPARTMENT

At the request of the Police Department we have made traffic study sketches at intersecting streets, and submitted them for study by that department.

### HIGHWAY DEPARTMENT

The Engineering services required by the Highway Department included preliminary surveys, completion of preliminary plans, estimate of quantities and cost of construction, and designation of lines and grades in the field, as follows: **Drains**-Gale Road and Rockledge Road to the ocean; **Sidewalks**-Andrew Road, Farragut Road, Lincoln House Avenue, Walnut Road.

At the request of the Highway Department lines and grades were given on Puritan Road opposite Puritan Avenue for the purpose of regrading gutters; also the new Highway trucks were measured, capacity computed and data given that department.

### STREET LINE SURVEYS

At the request of citizens concerned, fourteen surveys were made for the purpose of locating street lines as established by town plans. This work in some cases included the study of private deeds and visits to the Essex Registry of Deeds in Salem to straighten out errors found in old plans and deeds.

### SELECTMEN'S DEPARTMENT

In compliance with a request of the Board of Selectmen, estimates and listing of the several streets for the purpose of laying new sidewalks were made.

A layout plan of Bates Road was made for Town Meeting. A survey of land at the end of Blaney Beach was made for the purpose of making a plan to register said land in the Land Court, the title for this land not being on record.

A survey of land and a plan of the East intersection of Walker and Paradise Roads was made for the Town Meeting for the purpose of widening the intersection.

Several sketches and plans were made for the Veterans' Housing Committee for study.

A resubdivision plan of lots on Cedar Path in Swampscott Cemetery, and the placing of names on Cemetery plans, have been completed.

Several sketches and plans including descriptions were made for the Legal department.

Engineering advice was given from time to time regarding Zoning and Planning Laws in the different districts.

### WATER DEPARTMENT

The Engineering services required by the Water Department included preliminary surveys, preliminary plans, estimate of ledge excavation, final surveys and plans. Water pipe location plans were made for the following streets: Ocean Avenue near Longley Avenue; Charles Road; Foster Road and extension; Bradlee Avenue tie into Ocean Avenue; Winshaw Road; Gale Road and Duke Street.

A set of Hydrant Location Plans were made for the purpose of locating fire hydrants in a heavy snowfall or any emergency.

### SCHOOL DEPARTMENT

At the Machon School, a new play area was resurfaced by the placing of sheet asphalt over a large area. The Engineering required for this work included preliminary surveys and plans, designation of lines and grades in the field and supervision of construction.

At the Hadley School preliminary plans and valuation estimates have been made of land adjacent to said school for the purpose of land takings.

---

In addition to the work requested by the several departments of the town, surveys were made and plans prepared for two private sewers at Puritan Lane and Deer Cove Road, for which there have been no plans or records in the past.

Twenty-five stone bounds were set on several streets for the purpose of defining street lines.

Estimates for Chapter 90 work were made and stone bounds were set, with the aid of the County Engineering Department, on Salem Street to define the recent layout by the County Commissioners.

Many requests have been made for Town Maps by citizens of the town, business houses, U. S. Army etc.

### PERSONNEL AND EQUIPMENT

This department functioned with a Chief Engineer, Assistant Engineer, Transitman, and Rodman- Inspector.

The department still needs more filing cabinets, a calculating machine, drafting equipment and field equipment, some of which we hope to purchase in 1949.

In closing I wish to thank the different departments for their fine cooperation during the past year.

Respectfully submitted,

HOWARD L. HAMILL,  
Town Engineer.

## Board of Fire Engineers

---

January 15, 1949.

Board of Selectmen  
Swampscott, Mass.

Gentlemen:

The Board of Fire Engineers respectfully submit the following report for the year ending December 31, 1948.

The past year, by a comparison of figures, shows many fewer fire calls and much less equipment used. On the other hand the type of fires this year have been different and fire losses have actually increased. With fewer runs and less wear and tear we have in the face of increased costs been able to keep within our requested budget.

Repairs to buildings etc., voted at the last town meeting, were completed at slightly under the amounts provided. The one job undone is the Phillips Beach station which still needs minor repairs and painting outside and in.

The Chief's car, now twelve years old, should be replaced this year.

With the cooperation of the Finance Committee we have been able to equip all apparatus with self-contained air masks as provided by State law. This saved the town about \$600.00, as the price of these has now advanced and is going still higher.

We would like to commend the officers and men of this department and also to express our thanks to other departments and individuals for their assistance, particularly during the heavy snows of last winter.

Yours very truly,

THOMAS J. FLAHERTY,  
HAROLD F. HARVEY,  
LAWRENCE A. SAGER,  
BOARD OF FIRE ENGINEERS

## Fire Chief's Report

---

January 1, 1949.

To the Board of Fire Engineers

Gentlemen:

I submit the following report for the year 1948.

Delayed discovery and improper notification are the two big causes of loss of life and damage to property by fire.

The surest way is to use your nearest fire alarm box. If however the telephone is used, call LY2-0082.

### Equipment

Our apparatus and equipment is in good condition. This is due to continuous repair and replacement of necessary parts by our own department mechanic. We should however replace the Chief's car this year.

### Buildings

The Phillips Beach engine house should be finished this year. This should not be too big a project.

The 58 year old Central House is in poor condition and a major repair job will soon have to be done. Traffic conditions make it difficult and at times impossible to get in or out. Because of these facts I believe that a new location should be considered.

### Housing

I recommend that a study be made of building codes for the town for the protection of owners and tenants, particularly during this housing shortage.

### Schools

Most fires in schools and public buildings, due to delay of discovery, have caused great losses. We should have protection in these buildings, particularly in the High School where we have not enough water for adequate fire fighting. A definite program should be laid out on a yearly basis and eventually cover all Town owned buildings. These cannot be covered by an insurance policy.

Thanking the personnel and Board of Fire Engineers for their fine support and co-operation, I remain,

Very truly yours,

C. H. LAMPARD,  
CHIEF OF FIRE DEPARTMENT

## Highway Department

---

To the Citizens of the Town of Swampscott:

The Highway Department herewith submits its annual report for the year 1948.

At the beginning of this year, having seen deluged with some of the heaviest snowstorms recorded in history, this department and the town were fortunate to have such fine motorized equipment to fight these storms with to clear our town highways.

In addition a substantial saving of labor was realized with this motorized equipment.

While in the process of making this report a new garage is being constructed for the housing of all equipment. This new building should be completed shortly after the new year.

All of the horses, wagons and accessories that were used with equines, were disposed of by a public auction at the Town Highway premises on April 10, 1948. The sum of \$1,358.85 was obtained from this sale. The funds received were turned over to the Town Treasurer's office.

### SIDEWALKS

New sidewalks were erected this year on the following streets:

Orient Court	Atlantic Avenue
Lincoln House Court	Beach Bluff Avenue
Essex Street	Melvin Avenue
Andrew Road	Bates Road
Farragut Road	Thomas Road
	Walker Road

This department is continually receiving requests for new sidewalks. Due to the fact there is only a limited amount of funds appropriated in the budget for this purpose, it is our desire to try and erect sidewalks in each precinct yearly.

### SIDEWALK MAINTENANCE

Sidewalks were repaired and attended to during the year on the streets listed:

Humphrey Street	Burrill Street	Banks Road
Francis Road	Lawrence Road	Morton Road
Puritan Road	Eulow Street	Mostyn Street
Atlantic Avenue	Essex Street	

### STREETS

Plymouth Avenue, Worcester Avenue and Columbia Street from the Lynn line to Burrill Street were resurfaced by this department.

All streets and sidewalks were cleaned during the year when needed. All streets are viewed weekly by this department.

### GENERAL MAINTENANCE

This department has cooperated with all other town departments during the year. In addition the men and equipment have been available when needed.

At the Northwesterly side of the Machon School the playground area was resurfaced by this department.

Surface water drains were built and laid at Gale Road and Rockyledge Road.

Fisherman's Beach and Whale's Beach were cleaned up every working day during the summer months.

Four receptacles for waste paper were placed on Humphrey Street near Redington Street during the summer months. Additional receptacles will be added during the summer months of 1949. It is the hope of this department that the merchants and the citizens will cooperate in helping to keep our streets clean by making use of these containers.

All materials used by this department in large quantities were advertised and purchased under contract in accordance with the Town By-Laws.

### PERSONNEL

In the early part of the year two employees, James Donlon and Louis Delano who had served the town faithfully over a long period of years, were retired on pension.

The members of this department regret the passing of Louis Delano and John Stone.

They served the town well and will be missed by all who knew them.

In conclusion I wish to extend my appreciation for the cooperation of all Town Departments.

Respectfully submitted,

TIMOTHY J. RYAN,  
Surveyor of Highways.

## Superintendent of Cemetery

---

To the Board of Selectmen:

Gentlemen:

I herewith submit my annual report for the year 1948.

The total interments for the year were 92. All receipts for funerals, foundations, and sale of lots were paid to the Collector of Taxes.

Sunken graves were filled and seeded.

We have taken down a number of trees to improve the lots which will be seeded and topdressed in spring.

Weed killer was used over all the walks and avenues.

I recommend that the Town replace the building in the Cemetery which is in a deplorable condition.

I wish to express my appreciation to all departments which have cooperated with me.

Respectfully submitted,

JOHN E. WOOD,  
Superintendent

## Board of Trustees of the Public Library

Swampscott, Mass.  
January 4, 1949

To the Citizens of Swampscott:

The Board of Trustees of the Swampscott Public Library submits its report for the year 1948.

Many needed repairs and improvements were made in the Library building during the year 1948; hot water was provided; adequate lights were installed over the loan desk and in the office; an electric cooler was placed in the vestibule; registration files were built into the loan desk, and a glass panel inserted in a door leading to the stairs; the fire escape and roof were repaired, and other smaller repairs made.

The Library has now reached the 30,000 volume class, which is the minimum number of volumes prescribed by the American Library Association for a Town of our population.

As in past years, we are again calling attention to the need for an addition to the Library building. We have no further shelf capacity on the first floor, and approximately 10,000 volumes are stored in the basement. There is a definite lack of space for High School students using the Library, and this year it has been necessary to restrict the use of 16 seats in the Reference Rooms in the evenings to those who need to consult reference books. The Trustees have in the Library Budget for this year included an amount to provide for architects' drawings for an addition to the building, and it is our wish that very shortly an addition will be built which will at least provide a quiet adult Reading Room, a further Stack Room, a Work Room for book preparation, mending and other technical processes, and a Staff Room. A further room, adaptable for small meetings, for loan displays of pictures, prints or paintings, for a concert of recordings, and the showing of film, or even an occasional television program, should be provided when the addition to the Library building is made. Progressive libraries elsewhere, even medium sized ones, do all of these things.

The Lending Collection, which had previously included only the traditional printed materials, has been modernized by the purchase of 47 albums of victrola records, chiefly classical music. Five gifts were received during the year, making a total of 220 records available. Since this service was made available in March, an average of 200 records a month have been borrowed.

As part of the observance of Book Week, an Open House for adults was held on November 18, at which time a bronze plaque was placed in the Children's Room, and the room was named "The Jean Allan Room", in recognition of the part Miss Allen, as Trustee, contributed to the creation of that room. Before an audience of about 60 town's people, and a few specially invited guests, Stephen W. Howe, a former student of Miss Allan's, described in a short talk her characteristics, and interest in the establishment and maintenance of the Children's Room.

For the first time in 5 years, we have had a full staff, except for the absence of the Librarian for two months, due to illness. During the Librarian's absence, we were particularly fortunate in securing the services of Mrs. Ruth Waterhouse Wood, a former member of the staff, who acted as Librarian during Miss Snow's absence.

### FLOWER ARRANGEMENTS

Flower arrangements from the different Garden Clubs of the Town have been received each week, and placed on the circulation desk.

## CHILDREN'S DEPARTMENT

As in the past years, the Children's Department has been particularly active, and much good work has been accomplished under the leadership of the Children's Librarian, Mrs. Linden. Space does not permit a complete recording of the activities of this Department. Among other things a summer reading club was organized, of which there were 137 active members. Story hours were conducted during the year monthly, except during the summer, and a consistent program of school visits, introducing the Library, and explaining something of its privileges and uses was carried out during the year.

A Treasure Chest of favorite American books was collected by the children of grades 1 through 6 of the public schools. The chest, a donation from the Manual Training Department of the High School was decorated with emblems significant of Swampscott, by the students in art, under the direction of Miss Chaisson, and, upon vote of the children, shipped to Avellino, Italy, as a part of a national project to spread abroad an understanding of American life.

## Water and Sewerage Board

### SEWER DEPARTMENT

To the Citizens of Swampscott:

We hereby submit our annual report for the year ending December 31, 1948.

Sewers constructed for 1948; amounting to \$9686.05 were laid in the following Streets:

Burpee Road, Forest Avenue and Pine Hill Road.

Several sewer connections have been dug up this year and roots have been removed. This work has to be done each year.

A drain was constructed in Pitman Road for the sum of \$495.55.

Subject: Progress on New Outfall Sewer Project During 1948

Mr. Harold G. Enholm, Chairman  
Water and Sewerage Board  
Swampscott, Massachusetts

Dear Mr. Enholm:

During 1948 all preliminary work in connection with the New Outfall Sewer Project was finished and the actual construction work is now underway.

Permits to construct the New Outfall Sewer were received from the Massachusetts Department of Public Works in January and were received from the U. S. Engineers in February.

The contract drawings were approved by the Massachusetts Department of Public Health in February 1948.

The Water and Sewerage Board received bids for constructing the New Outfall Sewer on March 22, 1948. Three bids were received and these ranged from a low figure of \$239,131.74 to \$388,850.00. The low bidder was John Forward, Inc., of Medford, Mass., and on April 5, 1948, the Water and Sewerage Board entered into a contract with the low bidder for constructing the New Outfall Sewer.

Delivery of material was much poorer than was anticipated when the job was estimated; consequently the Contractor was unable to proceed according to his original schedule. Delivery of the metering equipment was not completed until the end of December 1948. It is expected that delivery of all of the pipe will be completed by the middle of January 1949.

On September 16, 1948, the Contractor broke ground for the New Meter Chamber in the rear of the Town Pumping Station. Since that time the meter tube has been installed and the chamber has been built. With all of the metering equipment now on the job, the meter installation will be completed early in January 1949.

The connection between the existing outfall sewer pipe and the new outfall sewer pipe was made on September 24, 1948; however, it was the latter part of October before the Contractor had sufficient pipe on hand to start work on laying the New Outfall Sewer pipe. The

Contractor laid over 800 feet of pipe before suspending work for the winter months.

The submarine pipe is being laid in 88-foot long sections. Each section contains seven 12-foot lengths of Metropolitan type joint cast iron pipe with a special 2-foot piece on both ends. The Metropolitan type joint is a flexible joint made with lead; and according to the terms of the contract, a deflection of 10 degrees is allowed in each joint. During the winter months the Contractor plans to assemble these 88-foot sections in his yard in East Boston. These sections will be transported to the site when they are needed in the spring on one of the Contractor's barges. This will enable him to complete the entire project in 2 to 3 months after he resumes work in the spring.

During the year the value of the material and work done upon this project by the Contractor amounts to nearly \$90,000.

Very truly yours,

FAY, SPOFFORD & THORNDIKE  
BY R. W. HORNE

## WATER DEPARTMENT

---

To the Citizens of Swampscott:

We submit herewith our annual report for the year ending December 31, 1948.

### SERVICES:

- 54 New Services have been installed
- 3 Services abandoned
- 28 Services renewed completely
- 15 Services renewed from main to sidewalk
- 8 Services renewed from sidewalk to meter
- 6 Frozen services thawed
- 53 Service leaks repaired
- 50 Services cleaned out
- 464 Services on request have been turned on or off

### METERS:

- 62 Obsolete meters have been replaced with new ones
- 68 Meters have been cleaned repaired and tested
- 104 Meter leaks have been repaired in the field

### MAINS:

A total of 1560 feet of 6" cast iron mains was laid in the following streets:  
Duke St. 169 feet; Foster Rd. 339 feet; Winshaw Rd. 344 feet; Gale Rd. 363 feet;; Galloupes Pt. Rd. 345 feet.

- 2 Breaks in our 6" mains were repaired.

Due to the fine spirit shown by the Town Engineer and his assistants we now have scale plans of all new water main installations from 1942 (the year in which this program started) through 1947.

## HYDRANTS:

- 1 Hydrant broken off by a motor vehicle
- 3 Hydrants were added to the system. One in each of the following Streets:  
 Galloupes Pt. Rd. near the Schaye property  
 Duke St. near corner of Stetson Avenue  
 Winshaw Rd. near corner of Gale Rd.

The spring and fall flushing of hydrants was carried on in the usual manner after notices had been posted in the local papers informing the public of our schedule.

The fall inspection, repairing and winterizing of hydrants was performed and all town departments having occasion to use same were notified by mail to notify us of the use of any hydrant during the winter months.

Due to the inability of the Metropolitan Water Department to furnish an adequate supply of water for all purposes during the peak loads this past summer the general public was requested to refrain from the uses of hose and lawn sprinklers.

In view of the foregoing statement this Board was instrumental in having a bill passed in the State Legislature for a new line from the Fels Pond Reservoir to Swampscott and the necessary money appropriated for its installation.

The installation of this new main will take from three to four years but when it is completed it should assure the Town of an adequate supply of water at all times.

## WATER DEPARTMENT:

To the Department Heads and Personnel of all Town Departments; Your individual and collective co-operation throughout the past year is deeply appreciated.

The details of Water Pipe construction follows and the cost of same can be found under the Town Accountant's report.

**Department of Corporations and Taxation**

DIVISION OF ACCOUNTS

STATE HOUSE, BOSTON 33

June 21, 1948

To the Board of Selectmen  
Mr. Edgar U. Burdett, Chairman  
Swampscott, Massachusetts  
Gentlemen:

I submit herewith my report of an audit of the general accounts of the town of Swampscott for the period from March 1, 1947, and of the treasurer's accounts for the period from March 19, 1947, to February 6, 1948, made in accordance with the provisions of Chapter

44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,

Director of Accounts.

---

Mr. Francis X. Lang  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the general accounts of the town of Swampscott for the period from March 1, 1947, and of the treasurer's accounts for the period from March 19, 1947, the dates of the previous audits, to February 6, 1948, the following report being submitted thereon:

The records of financial transactions of the several departments receiving or disbursing money for the town, or committing bills for collection, were examined, checked, and verified by comparison with the records of the town accountant.

The town accountant's general and appropriation ledgers were analyzed. The appropriations, loan authorizations, and transfers, as entered, were compared with the town clerk's record of financial votes passed in town meetings and with the finance committee's records of transfers authorized from the reserve fund, and a balance sheet showing the financial condition of the town on February 6, 1948 was prepared and is appended to this report.

The accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the various sources from which money was paid into the town treasury, while the records of disbursements were compared with the accountant's books and with the treasury warrants approved by the board of selectmen.

The treasurer's cash balance on February 6, 1948 was proved by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited and by actual count of the cash in the office.

The payments on account of maturing debt and interest were verified by comparison with the amounts falling due and checked with the cancelled notes and coupons on file.

The savings bank books and securities representing the investment of the trust, investment, and retirement funds in the custody of the town treasurer were listed. The income and withdrawals were verified, and the balances were reconciled with the books of the town accountant, and, in the case of the retirement funds, with the books of the retirement board.

The records of tax titles held by the town were examined and listed. The taxes transferred by the collector were proved, the reported redemptions were checked with the treasurer's receipts, and the outstanding accounts were verified and compared with the records at the Registry of Deeds.

The records of payroll deductions on account of federal taxes were checked and reconciled with the treasurer's and the accountant's books.

The assessors' records of abatements granted were reconciled

with the collector's books and the accountant's ledgers. The assessors' warrants for the commitment of taxes, motor vehicle and trailer excise, assessments, and water leins were examined and checked with the detailed lists. The records of assessments apportioned and suspended were examined, while the apportioned assessments not due and the suspended assessments were listed and reconciled with the accountant's ledger accounts.

The books and accounts of the collector were examined and checked in detail. The tax, motor vehicle and trailer excise, departmental, and water accounts outstanding at the time of the previous examination, and all subsequent commitments, were audited and compared with the warrants issued for their collection. The recorded receipts were checked with the payments to the town treasurer and with the town accountant's ledger, the abatements were compared with the records in the departments authorized to grant them, the taxes transferred to the tax title account were proved, and the outstanding accounts were listed and reconciled with the town accountant's ledger.

The outstanding tax, motor vehicle and trailer excise, departmental, and water accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

The work in the collector's office showed marked improvement, the books and records having been neatly and accurately kept.

The financial records of the town clerk were examined and checked. The receipts from dog and sporting licenses were proved, and the payments to the town and the State were verified.

The surety bonds of the financial officials required by law to furnish them were examined and found to be in proper form.

The records of licenses and permits issued by the board of selectmen, the building inspector, the inspector of plumbing, and by the police and health departments, as well as the records of receipts of the sealer of weights and measures, of the school, the library, and the cemetery departments, were examined and reconciled with the town treasurer's books and with the town accountant's records.

The petty cash advances in the various town departments were verified by actual count.

In addition to the balance sheet, there are appended to this report tables showing a reconciliation of the treasurer's cash, summaries of the tax, motor vehicle and trailer excise, assessment, tax title, departmental and water accounts, together with tables showing the condition and transactions of the trust, investment, and retirement funds.

During the progress of the audit, cooperation was received from all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.
